Old Honesty Terms Mutually Protect

All stock guaranteed true to name and in live growing condition,—any proving otherwise will be replaced.

All hardy perennials, rock plants etc., are field grown in rugged New England, they must be hardy with me under such condition or they are not sold to you as hardy. No half starved or petted pot grown plants here.

Substitution Only On Permission

Payment may be made when ordering or goods sent P. P. C. O. D. which means extra charges to customer—save it—remit with order.

Postage is paid on all cash orders, you save here also—(Local orders delivered).

Remit by check, Express or P. O. order—stamps excepted but not “prayed for”.

All stock shipped at proper planting time with growing instructions, etc.

“My Kiss to the Lawyers”

So much interest in my adopted “slogan” invites this short explanation:—The writer in early life attempted the growing of flowers etc., under such adverse conditions that he was forced to forsale it until later and this later—was made over twenty-five years later—due to the deceit and dishonesty of those trusted while trying to “get a start” causing not only loss of faith and unhappiness but great financial loss.

The disgusting facts I had forced upon me during that period of the “honor” of those whom I had trusted and the contemptible acts of lawyers resulted in my slogan:—“Be honest—or help support a crooked lawyer”, and from my experience with the honest nature I find common among flower lovers I believe that they will appreciate both the explanation and “slogan” and the resulting adoption of “OLD HONESTY” to identify dependable garden flora etc.

A Personal Word About My Dahlias

It makes no odds what a dahlia is priced—or how large “a cabbage” it grows to—if it has not got real beauty it comes not into my collection and the favorable comments of those who have viewed displays from my gardens leads me to believe that I am offering varieties no one of which will fail to please;—many of them are very artistic in their style and you will find these indicated A. D. (artistic decorative) while an unusual classification, it says something to those who like “fluffy things”, pointed, twisted, or ruffled petals—These are the real beauties and this charming form is also shown greatly in the H. C. class.
Old Honesty Dahlia Collection

This collection is my best "special" always giving satisfaction and customers unfortunate in loosing bulbs during winter have wanted the identical varieties the next season when re-ordering it:—For use in this collection I each year especially propagate many of the better dahlias as it is a winner in sales and satisfaction—12 labelled varieties, my selection of different types and colors value $7.50 or over—$5.00.

OLD HONESTY DAHLIA TYPES

7 named labelled varieties, my selection, 1 each—Cactus, Decorative, Peony, Show, Pompon, Collarette, and Single; surety variety and "no junk". The 7 value—$2.50 or over—$1.50.

YOUR OWN COLLECTION

This economical plan is offered to those wishing to "roll their own" collections:—Select any 6 (or over) varieties you want from list and deduct 15% of total—thus, six dahlias amounting to $4.00 will cost $3.40 etc.—only one bulb marked * may be included in each 6 owing to limited stock.

A List of Real Dahlia|Beauty

Abbreviations mean:—A. D.—Artistic Decorative; D.—Decorative; C.—Cactus; H. C.—Hybrid Cactus; P.—Peony; S.—Show.

ROSE PINK CENTURY—Very large rose pink  .35

Pompon Dahlias

The "baby" dahlia and its usefulness appealed to me so strongly that I believe I have collected together an unequalled list of distinct varieties and such as I have stock of to offer is listed here. My Pompons have captured First and Special Ribbons whenever shown at the Boston Dahlia Show or fairs—That's what those who have seen them think of them—If you don't know the Pompon—it's a wonderful either garden or cut flower, and very dependable for abundant bloom, a vase of the mixed colors or of one or two "shades" is very appealing.

OLD HONESTY POMPON COLLECTION—8 varieties my selection different colors and labelled—$3.00 value or over—$2.00.

ADimiral Dott—Pink tinged lavender—round perfect flower..................................................  .50

Old Honesty Plant Offers

Special collections of dependable and desirable plants as described—Be sure to give correct number of collections wanted.

1. Hardy Perennials; especially selected for extended period of bloom through the season. Six different good blooming varieties

2. Rock Garden Plants; very desirable low growers (mostly early bloomers) also desirable for edging of gardens, etc. Six different varieties

3. Tall Background Plants; many desire a collection of this kind suitable for centre or rear of beds; all grow over three feet tall. Mid season and late bloomers. Five varieties

4. The Blue Garden; so many like and want blue flowers that this collection is offered. Five distinct species

5. The Iris Collection; selected for range of color and long season. Iris are a specialty at these gardens. Ten choice varieties value at least bought separate $3.25. Special

6. Economical Iris Border; at low cost and well mixed as to color but not labeled. Iris can be planted any time. Twelve plants

These two offers in Iris are especially desirable, particularly the mixture where a quantity is wanted for large planting and a good mixture is assured of different colors.

7. Dwarf Pumila Iris; the earliest of the lovely Iris family to bloom, low growing they start the Iris season a month before the regular Iris come to delight. Four varieties

8. Hardy Phlox; bloom when there is not much else in the hardy garden. Dark and light colors mixed. Six plants

The Free Blooming Early Rock Plants are Good Edgeing Plants Anywhere.
9. Hardy Chrysanthemums. No petted cold frame grown stock—but varieties that have proven reliably hardy with me and live through the winter in the garden, 4 distinct colors...$1.25

10. Pyrethrums or Painted Daisies; a very choice long lasting cutting flower. Blooms in June. One each: White, Pink and Red. Three plants $1.00

11. Primulas or English Primroses; extra choice and rare early bloomer for semi-shade and damp ground. Four distinct colors. (Stock limited) .................................................................$1.25

12. Trollius; some call it double buttercup, but this is four times larger than that, a very choice scarce plant for damp ground and semi-shade. One each; Soft Yellow and Deep Orange color .................................................................$1.00

Two New Iris Creations of
THE STUDIO GARDENS

Exquisite Beauty:—An early low pumila Iris, 5 inches high, soft lemon yellow, delicately touched with white, giving the appearance of frost upon it, suggesting its own name; stock limited—$2.50.

Ethereal Charm:—Another “blue” Iris, but of an unusually beautiful blue that invites the favorable notice of all visitors. A light delicate shade that does not fade with age, having the appearance of being tinted with a silvery gold, due to a gold veining, and carrying this unique color effect just as well at a distance as it does close up. Very firm substance, shape of fine form, and above average size; 32 inches high. Stock limited, each $10.00.

Hardy Perennial Plants are Perpetual Pleasure Plants

Once planted and given the very little care they demand, you each season have your floral pleasures without the bother and uncertainty of planting seeds.

Although Iris is my “hobby” the studio gardens offer many other desirable hardy plants, among them: Arabis, Alyssum, Anthemis, Aquilegia (columbine), Boltonias, Campanulas, Coreopsis, Hardy Chrysanthemums, English Daisies, Delphinium, (Larkspur), Digitalis, (Foxglove), Hibiscus, Hollyhocks, Lychnis, Forget-Me-Nots, Pansies, Paeonies, Poppies, (Oriental and Iceland, Oenothera (Evening Primrose), Flax, Physostegia, Phlox, in many varieties, Pyrethrum, Goldenglow, Sedum, Sempervivum, Sweet Williams, Double Buttercup, Veronica and many others not so well known.
Here's a Good One for Flower Lovers

A teacher was trying to convey the idea to her class of the power of physical beauty to inspire beautiful thoughts. Six-year old Elsie couldn’t seem to understand it.

“Here’s an example, Elsie,” explained the teacher. “Suppose your mother should fill a vase with some lovely flowers and put them in the center of the dining room table. What would your father say?”

“Oh, I know, teacher,” exclaimed Elsie brightly; “He’d say, ‘Whathnell them dam-weeds doin’ there.’”

Some of My Specialties

PRIMULAS
(English Primrose)
CLIMBING ROSES
NEW SEEDLING IRIS
CHOICE ROCK GARDEN PLANTS

The collecting and propagating of distinctive types and the better varieties of these plants makes the offerings from these gardens of unusual interest; list of present offerings of any of these upon request.
